Serving those who serve ... it's our duty

Homefront Resource Center connects service members, veterans, and their families to community

Each year, more and more veterans enroll at SCTCC to explore and further their career development. Countless others may not self identify as a service member or veteran. All must try and make sense of the complex challenges, opportunities and benefits available to them through their service.

Homefront Resource Center is designed to be a premier, innovative, campus-based center where community resources can come together to support service members, veterans, and their families.

The center, in the heart of SCTCC campus, will provide a welcoming space for veterans to connect with other veterans. In addition, center staff and partners will help veterans and their families connect with and navigate local, state and federal services and resources. Advocacy in the areas of education, employment, housing, wellness, and family also will be available.

“We need to make sure we are doing everything we can to support military families and veterans,” President Joyce Helens said. “It’s an honor to serve them.” *cont. on page 2*

A special thanks!

The Homefront Veterans Resource Center would not be possible without the partnership of these organizations.

- Goodwill-Easter Seals - This project has been supported by Newman’s Own Foundation
- Minnesota National Guard
- Central MN Community Foundation
- St. Cloud VA Health Care System
- St. Cloud Area United Way
- St. Cloud Mayor’s Office
- St. Cloud State University
- Initiative Foundation
- Beyond the Yellow Ribbon
- Warrior to Citizen Members
- Easter Seals Dixon Center

In addition, thanks to the more than 120 individuals and 73 organizations who provided valuable feedback and insight on the development of the resource center in March 2013.

Invest in those who serve

Homefront Resource Center was started with an \$8,225 investment from U.S. Bank.

SCTCC seeks:

\$1.5 million – Completion of Homefront Resource Center
 \$1.0 million endowment – Annual operating budget of \$75,000 (at 5% annual draw)

Make your tax-deductible contribution today.

Did you know?

SCTCC is 5th nationally in the Best for Vets: Career & Technical Colleges 2015 rankings by Military Times. This distinction recognizes SCTCC for its commitment to providing opportunities to America's veterans.

Renovate. Refurnish. Repurpose.

These three words are at the core of transforming 9,566 square feet of vacant, unusable space at SCTCC.

When the dental hygiene and dental assisting programs moved to the new Health Science Building in 2010, they left an expanse of space in the center of SCTCC's largest building. Today, a vision for that space includes multi-

**A class act
 Designing space
 for liberal arts
 and sciences**

purpose classrooms to serve the more than 2,000 students in liberal arts and sciences courses as well as an art lab.

Modular furniture would allow for reconfiguring and repurposing for classes of 35 or more students easily.

The renovation cost of \$625,000 has been submitted as a legislative capital bonding request for 2016.

Medium/Heavy Truck and Auto Body Lab Renovation and Expansion

Funded through FY12 Bonding Funds

The Project by the Numbers

- 17,372 new gross square feet
- 2,868 gross square feet renovation
- 6,180 gross square feet renewal
- \$4,000,000 total appropriation amount
- \$3,334,000 total construction costs

Since Project Completion

- \$63,000 increase in annual live work revenue that is reinvested in program
- \$111,000 in major donations

- received from several industry partners in FY14
- 100% job placement in Medium/Heavy Truck and Auto Body Technician programs
- \$20.39 avg. hourly wage for Bus/Truck Mechanics and Diesel Engine Specialists in Central MN

- 100% capacity in both program areas with expanded program offerings
- Significantly improved safety through upgraded ventilation systems, better lighting, and better sight lines for faculty supervision

Give. Receive. Repeat.

It's a straightforward process for owner of Peter's Body Shop

Roger Bonn began working at his father's auto body shop in high school. He didn't know much about the work at the time, but thanks to his mentor, Vern, he learned the tools and tricks of the trade.

"You can't do that anymore. You can't take 25 percent of your best people's time to teach new employees from the ground floor." Roger said. "There's simply too much pressure about productivity."

That's where St. Cloud Technical & Community College comes in.

"The college teaches students the fundamentals, so when they get here they can easily replace a bumper and fix a dent in a door quickly," Roger explained. "They get exposed to new technology too."

"The individuals I would like to thank are Roger Bonn and Kerby Plante, Director of CAS, as he helped me with the application and helped me achieve the requirements to receive the scholarship. This scholarship made a difference in my life because it gave me back hope - I have worked very hard to receive this chance in life. It's nice to get rewarded for my hard work. I plan to use my education to improve my employment opportunity in the field of what I have been doing for over 25 yrs. It's what I enjoy - helping people get back on the road!"

- Loran Manthey, Scholarship Recipient

Roger understands developing curriculum for the industry is a delicate balance between doing what national organizations say is important now for certification and what local shops know to be their reality day in and day out. That's why he's an active member of SCTCC's Auto-body program advisory board as well as local, state, and regional trade organizations: to be a voice. And he doesn't stop there.

His investment of time, talent, and funding extends beyond the program that is most familiar to him. In fact, Roger served as president of the SCTCC Foundation Board (which his father helped establish in 1996). He also was an unwavering voice in the DRIVEN Campaign for the renovation and expansion of SCTCC's autobody and medium/

heavy truck labs in 2013. Specifically, Roger logged many miles, speaking on behalf of industry and the college at the State Capital, economic forums, and legislative visits around the state. Finally, his family has invested in student success by providing annual scholarships.

For him, it's a natural part of doing business.

"We want to give back to an industry that has been very good to our family and business. And we want to help those who might not have the wherewithal to change their lives," Roger said. "If we can attract people to this industry and give back to the industry, this will build up a strong work force for years to come and make a such difference in our community."

"I chose the dental assistant program because I wanted to find myself in a workplace where I could help and serve people on a daily basis. Coming from a family of eight children, I learned early on that respect and compassion go a long way when caring for those around you. These attributes have helped me greatly on my journey to SCTCC and will continue to carry me far beyond my college years. I currently exercise these qualities of respect and compassion to the best of my ability as I work. With a scholarship, I will complete my mission to obtain a degree in higher education and begin my life's mission as a Dental Assistant, changing the world one smile at a time."

"I am pursuing degrees in Energy & Electronics Instrumentation & Process Control, Robotics & Automation Technology, and Mechatronics. Last year I graduated from Royalton High School as class Salutatorian. In my speech, I spoke of the potential that resided in each of us and of the opportunities we have been blessed with so that we can chase after our dreams. Scholarship donors like you allow students everywhere to reach for the stars and achieve their dreams. Thanks to you, I am one step closer to completing my goals and doing what I love most. Thank you for asserting your confidence and investment in me. I wish to return your kindness by brightening our community's horizon in the years to come."

"From the bottom of my heart, I would like to say thank you! You are helping me with my education, so I can get an amazing job in Advertising and Web design. I am a mother of 3 beautiful daughters. You are helping me give them a better future. I am so grateful for people like you willing to help."

- Amber Sieling
Morgan Family Foundation Scholarship

In the fall of 2015 SCTCC awarded 244 scholarships totaling \$155,426!

Why I Support Student Scholarships?

When I was growing up in Sri Lanka, I was a member of a big family. We were five boys and three girls. My father was a hard-working science and math teacher, and mother was a homemaker. We did not have much and shared whatever we had among the siblings, the extended family of uncles, aunts, and the village. It was never a one-way street. Anyone who had excess always shared with others. When it comes to knowledge, god's gift, we shared it with anyone without hesitation. I remember the neighborhood kids stopping by my house to clear doubts or ask a question. I even remember times when kids who lived a mile away stopping by to ask questions. My father and brothers explained answers without any expectation.

When I came to the United States of America to pursue higher education, my older brothers brought my cousin with me, put both of us through college, and paid for our room, board and education expenses without any expectation of pay back. One of my brothers passed away in 1998.

I dream of taking care of my other brother when he is elderly, but he does not have any expectation from me.

"I give to keep my brother's memory alive and remember his support of my education. I want to pay forward what I received."

It is because of my family history that I give to St. Cloud Technical and Community College Foundation.

I give to keep my brother's memory alive and remember his support of my education. I want to pay forward what I received.

When I started giving, I realized happiness is seeing the fruits of

giving. If everyone helps and supports our neighbors like back home, we have a better community to live in. Especially in St. Cloud. At St. Cloud Technical and Community College we do not give our students a fish, but we teach them how to fish. Imagine, if every one of our students starts teaching the people whom they know how to fish, all of us will be better off. Rising tides raise all boats. When everyone gains knowledge, ignorance is wiped out. The world will be a better place for all of us to live in.

I invest what it costs to buy a cheap cup of coffee at the gas station every day, a dollar. I encourage everyone to invest a dollar a day in our community's future that will make a huge impact to our students' life and our future.

Gajendranathan Ramanathan

Faculty, St. Cloud
Technical &
Community College

A letter from The SCTCC Foundation Board

If you've been paying attention to local media, no doubt you've seen the news stories about the buzz happening at St. Cloud Technical and Community College. From the tiny house project, to the new media center and renovated classrooms, to the Homefront Resource Center for active military, veterans, and their families. SCTCC is living its core values of innovation and collaboration in order to fulfill its vision to be the school of choice for so many smart, talented individuals.

The SCTCC Foundation exists to undergird these efforts and help make the vision a reality. We do this by securing investments of time, insight, and financial support that has an immediate impact on the educational experience at the College, our students, and of course, central Minnesota. And this year's investment has been great.

Of note, the Foundation has experienced a 25% increase in faculty and staff giving, which signals SCTCC provides more than a job ... it has a mission that resonates. We also welcomed a 24% increase in attendance at our annual fundraising event "Night of 1,000 Laughs." In addition, we're grateful for the continued support from long-term investors, including U.S. Bank and its grant to jumpstart the Homefront Resource Center, Xcel Energy scholarships for students in the high-demand manufacturing sector, and a Community Pillar grant from Bernick's Family Foundation that routinely recognizes SCTCC's important role in the region.

The impact of this investment is far reaching.

Access to an affordable education took on greater meaning this year with a 38% increase in the number

of students awarded SCTCC Foundation Scholarships as well as a 41% increase in dollars awarded.

Providing Education that works moves beyond the classroom and labs to include advocacy and assistance to active military, veterans, and their families, as described in the "Serving those who serve" article in this report.

The impact will be felt for decades as we continue to graduate highly skilled and highly engaged citizens in our region and strengthen the fabric of our community.

Thank you for being a part of these efforts.

Allison Waggoner
SCTCC Foundation
Board President
DCI, Inc.

There's still time!

An investment in SCTCC is an investment in our community, in our future.

More than 70% of SCTCC students come from within one hour of campus. After graduation, SCTCC alumni choose to stay here to live, work, and raise their families. This is their home. And, the work they do in this community is significant.

As you consider your end-of-year giving, please consider SCTCC.
